## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 17-24 are allowed over the Prior Art of record.
2. The following is an examiner's statement of reasons for allowance: As to claim 17, the primary reasons for allowance of the claim is the inclusion of the method step limitation of inspecting a drilling riser wherein a lower marine riser package is disconnected from a blowout preventer and flushing an inner diameter of the drilling riser with a fluid prior to deploying an inspection apparatus. As to claim 18, the primary reasons for allowance of the claim is the inclusion of the method step limitation of inspecting a drilling riser wherein at least one acoustical transducer is placed within a housing and emitting an acoustical signal through the housing. Although it appears from the Prior Art that many types of drilling riser/tubular inspection tools exist in various forms, the specific limitation of the acoustic transducer within a housing is not specifically disclosed. The closest Prior Art references is the NPL document (see previous Office Action) to Agthoven which discloses many of the claimed elements of the instant invention, however, fails to teach or disclose the specific method steps of the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
